

# Club Takes to the Road Again, Visiting Members in the Mojave

The DWP Mojave office.

■ **City employee family extends far beyond the City, so the Club goes to them. Second in a series.**

Your City Employees Club will travel to great lengths to see all of our City and DWP employees. In June we traveled to Bishop, Lone Pine and Independence.

October 2, Club counselors Arlene Herrero and Angel Gomez made their way up State Highway 14, through Palmdale and

Lancaster, past Edwards Air Force Base before arriving at our destination—DWP Mojave District Headquarters and its monthly safety meetings.

Angel and Arlene drove more than 200 miles that day, a drive that look a little over an hour both ways, armed with only their Yahoo map. They made new friends and got reacquainted with old members.

Arlene and Angel want to thank everyone at the Mojave yard for welcoming them, and they look forward to their next visit soon. 🚗

Mike Daughtry, Construction Maintenance Supervisor, 19 years.

Don Keen, Labor Supervisor, 16 years.

Bob Chaney, Construction and Maintenance Superintendent, 24 years.

Charlotte Burrell-Jollivette, Clerk Typist, 23 years.

From left: Robert Turner, Building Repair, 11 years; and Gary Emory, Building Repair, 19 years.

John Miller, Southern District Engineer, 16 years

Jessi Daughtry, Student Worker, 3 months.

From left: Steve Krell, Aqueduct & Reservoir Keeper, 27 years; and Pat Witherspoon, Warehouse Worker, 29 years.

## FUN FACTS: About the DWP Mojave Yard

UNLINED CHANNEL:	24 miles
LINED CHANNEL:	37 miles
CONCRETE CONDUIT:	98 miles
STEEL AND CONCRETE PIPELINE:	12 miles
TUNNELS:	52 miles

### Second Los Angeles Aqueduct Facts

YEAR COMPLETED:	1970
CONSTRUCTION DURATION:	5 years
CONSTRUCTION COST:	\$89 million
TOTAL LENGTH OF AQUEDUCT:	137 miles
CONCRETE CONDUIT:	64 miles
STEEL PIPELINE:	69 miles
OTHER FACILITIES:	4 miles

From left: Gilbert Garcia, Construction Equipment Service Worker, 3 years; and Mark Perry, Heavy Duty Equipment Mechanic, 14 years.

Erick Rempel, Warehouse Worker, 15 years.

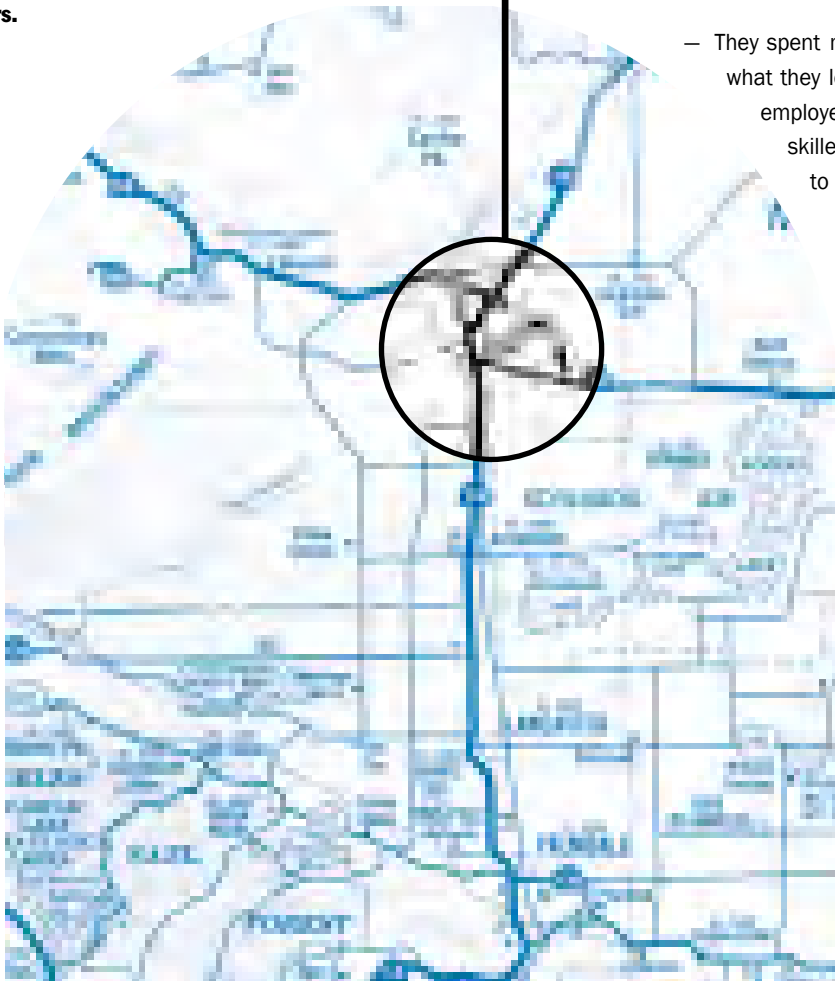

From left: Jason Emory, MCH, 5 years, with his uncle John Emory, Water Utility Worker, 20 years.

Henry Juarez, Sr. Storekeeper, 19 years.

“Handy” Andy Wolf, Construction Equipment Service Worker, 3 months.

**Club Counselor Arlene reports:**

– “ At 6:30am we arrived and were greeted by Jessi Daughtry, Charlotte Burrell-Jollivette and Mike Daughtry, who then introduced us to Bob Chaney, the C & M superintendent. Angel and I presented to approximately 70 employees a brief history of how the Club was founded and the many benefits available to them.

– “ They learned about our new Short Term Disability Insurance, and we informed them of the many discounts available as a City Employees Club member.”

– After the presentation individuals met with Angel and Arlene for a more personal one-on-one review of their benefits. Arlene was then given a tour of the yard, taking pictures of the employees in their work environment, while Angel continued meeting the folks one on one.

– They spent more than four hours at Mojave, and this what they learned, according to Arlene: “The employees at Mojave are an exceptionally skilled and dedicated workforce,” according to C&M Superintendent Bob Chaney.

– “A lot of our work is done uniquely, it’s done underground,” Jim Waggoner said. John Misustin claimed, “We are the shining star of the Southern end of Owens Valley.”

Steven Russell, Water Utility Worker, 15 years.

John McMurtrie, MCH, 3 months.

From left: John Misustin, Sr. Heavy Duty Equipment Supervisor, 23 years; Jim Waggoner, Safety Hazmat Coordinator, 16 years; and Ray Smurr, Equipment Repair Supervisor, 33 years.

From left: Todd Emory, MCH, 4 years; and Barry Boughamer, MCH, 18 years.
