DWP — To show that it takes safety seriously, the DWP's Fleet Services Division hosted its annual Safety Recognition Event to recognize employees who met safety criteria last year.

Two events were held, to accommodate the recipients. The first was held Aug. 9; the second one was held Aug. 17.

These were the first recognition events since new safety criteria were established with Cal OSHA, the state branch of the federal Occupational Safety and Health Administration, which establishes and monitors safety benchmarks.

Of DWP Fleet Services' 336 employees, 269 received individual safety awards. The Night Shift employees received group awards.

The Metro/Valley evening work shifts received 80 individual safety awards, 84 group awards and 105 awareness awards.

The Metro day work shifts received 85 individual safety awards, seven group awards and 125 awareness awards.

Congratulations to all the winners for keeping safety as priority one; and thanks to Thomas Patzlaff, DWP Fleet Services Training and Safety Manager, for his assistance.

*Congratulations!*
