LAPD — The LAPD Communications Division in West Hills held a blood drive Aug. 15 at the Communications Center.

As part of their commitment to the community, officers and Police Service Representatives took time to give blood to ease possible blood shortages, which occur especially during the summer months. Thirty-five City employees participated in the blood drive.

The bloodmobile was used for this blood drive.

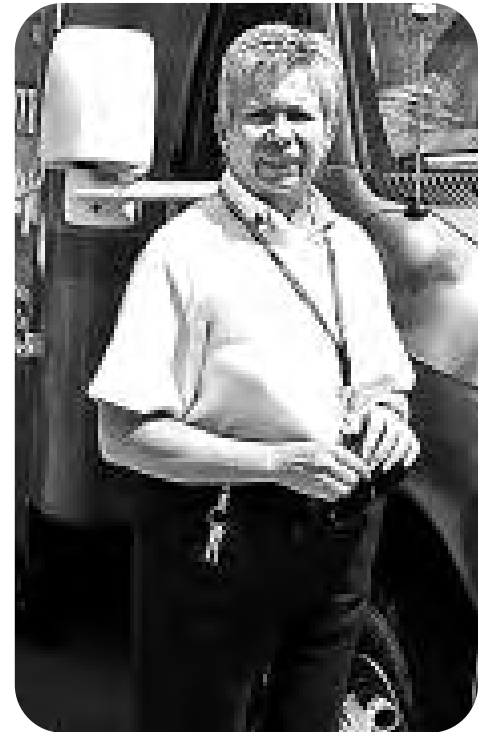

Special thanks to Lt. Ludwig and Sandy Hilbarger of the Providence Blood Donor Center for their assistance
