Peace of Mind

It's a Dog's Life, But Only With Insurance

The statistics of pet ownership in America rise each year, with dogs and cats in the lead. Many pet owners (including myself) consider our pets to be valued members of the family. Statistics provided by the American Pet Products Association have shown that we are also spending more on animal care — \$47.7 billion (predicted) this year. I'm not surprised by these facts, since my cat and dogs have more toys than they can destroy, and their diet is healthier and organically better than mine!

In addition to supplies and food, the greatest costs American pet owners incur are medical. According to USA Today, the cost in veterinary services has inflated 80.4 percent since 2000, in comparison with 28.1 percent inflation for services in all other industries.

When I decided to write an article about the Club's Pet First insurance plan, I initially wanted to share my own personal experience of needing to use it. But, quite honestly, I would rather not think about and re-live the horrendous details of the

day my dog escaped out of my yard and was hit by a speeding vehicle. In fact, I hope none of you will ever have to use pet insurance the way I had to when she spent the night in an Animal Hospital hooked up to a catheter. Today, I am happy to inform you, Gingerella, a gorgeous lab mix rescued from our City's very own Northeast Animal Services shelter in Lincoln Heights, is just fine. Just ask that golden tail of hers as she whips it in your face! If she's in a really good mood, she might even trip you with it.

Having Pet First Accident and Illness insurance coverage for Ginger gave me instant relief when the emergency veterinarian's office handed me the bill for \$1,391.13. I paid \$50 toward my deductible and received a check in the mail within weeks for the reimbursement of 90 percent, in my case, \$1,207.02.

The Pet First insurance plan is eligible to any dog or cat from eight weeks to nine years of age. In addition to covering accidents and illnesses, the plan also covers routine or preventative care including vaccinations, flea medications, physical exams, screenings, dental cleanings, spay/neuter, and behavior training, with no deductible and a 90 percent reimbursement. One of the greatest features of the plan is the freedom to receive services from any board-licensed veterinarian in the United States.

In comparison to our life spans, our furry friends are with us for a relatively short time, and I want them to stay as long as they can. The countless benefits of pet ownership make pet insurance well worth the cost. If you have

pets and want to join the other two million dogs and 800,000 cats already insured in America, call me today to sign up.
