Club Benefit Helps Safeguard Your Identity

The City Employees Club is at it again with yet another new benefit! Our product manager, Arlene Herrero, is constantly researching new ways to improve and enrich benefits for our Club Members. This month, we are launching Arlene's latest discovery on identification (ID) theft protection and service – InfoArmor.

If you have been a victim of ID theft, or know someone who had their wallet stolen and received an outrageous bill from the local library for 200 DVDs and 80 books, you'd know it's a living nightmare trying to prove that it wasn't you who signed off for the entire collection of the *Harry Potter* series. InfoArmor is more than just monitoring your credit. It is a sound and secure company that has demonstrated that the combination of high tech database instruments, wide network of industry resources, and full remediation service can deliver you the protection of eagle eyes in monitoring and restoring your identification.

Most credit monitoring companies monitor your credit report in the extension of a credit card or loan. InfoArmor doesn't stop here. They will alert you if they find records of an address change, opening a utility line, library card, telephone and wireless services, DMV records, check reorders, and any-

thing else with your personal information.

InfoArmor will do more than provide you with a list of bureau contacts if you need to appeal a false claim. They will assist in full restoration of your identity by making the calls and sending the letters for you (with your authorization). They will also cover pre-existing security conditions, so if you have been a victim of ID theft within the past three years or are currently dealing with cleaning up your records, don't fight the system alone! InfoArmor will resolve your past and present history. They will also continue to work with you to prevent future incidents by constantly monitoring your identity.

Give yourself peace of mind and protect your quality of life.

Tanya Edwards, Club Counselor, has had her own experience with ID theft and how it had affected her daughter's life.

As Tanya tells it: "My daughter had not only her ID stolen but her lifestyle as well. A few days after a night out, she discovered her driver's license was missing. When she went to the DMV to get a duplicate license, she was told that she had an outstanding speeding ticket for a violation in another state, where she had never been. The police in that state told her that a warrant had been issued for her arrest because she did not show to traffic

court. Her license was suspended, and it took more than a year to resolve the issue and get her license restored."

ID theft can happen to any of us. Be protected!

Open Enrollment for our InfoArmor product starts now at \$8/month for your entire family (rates are locked in during Open Enrollment)! This rate will increase when Open Enrollment is over. Here's another example of our group rating for Club Members and how it benefits your pocketbook: If you go directly to InfoArmor, they regularly charge \$14.95/month per individual coverage (and that doesn't include family members). Call your Club Counselor for more information or to receive your enrollment form.

You may also view InfoArmor's Website for more details at www.infoarmor.com. I've also included a couple of links that will help identify the scope of their operation.
