# Peace of Mind

by Tiffany Sy  
The Club's Peace of Mind Expert

"What I like most about InfoArmor is the wallet protection service you can set up on their secured Website. You list everything in your wallet, and if you ever lose it or get it stolen, Info Armor will contact all of your credit card companies and banks to protect it from being used by someone else."

- Megan E., Club Ticket Office Customer Service Associate

"I know that one of my favorite features of the plan is that they also cover pre-existing issues, which are usually not covered by other plans. If you have to restore your identity right now, InfoArmor will look back as far as three years to alert you if in fact your identity has been compromised."

- Lu M. Club Receptionist and Coloring Contest Coordinator

## Protect Your Identity

Identity theft reached 11.6 million victims last year, with an average of \$4,607.00 in charges per victim, according to Privacy Armor.

If you have ever been a victim of ID theft, or know a family member who had their wallet stolen and received an outrageous bill for erroneous charges, Info Armor can help. The Club offers this smart service.

Most credit monitoring companies monitor your credit report in the extension of a credit card or loan. InfoArmor doesn't stop there. They will alert you if they find records of an address change, opening a utility line, library card, telephone and wireless ser-

vices, Department of Motor Vehicle records, check reorders, and anything else with your personal information.

InfoArmor will do more than provide you with a list of bureau contacts if you need to appeal a claim. They will assist in full restoration of your identity by making the calls and sending the letters for you (with your authorization). They will also cover pre-existing conditions, so if you have been a victim of ID theft and enroll today, InfoArmor will look back up to the past three years and restore your identity. They will also continue to work with you to prevent future incidents by constantly

monitoring your identity.

InfoArmor utilizes proprietary technology to monitor your SNAPD identity blueprint. SNAPD (pronounced "SNAP"-d) stands for Social Security Number, name, address, phone and date of birth. InfoArmor uses these elements to create your identity blueprint and then monitor it for misuse.

Give yourself and your entire family peace of mind and protect your quality of life.
