Goodbye To June

City Clerk June Lagmay retires after 32 years of City service.

A retirement party was held Aug. 8 for June Lagmay, who retired after 32 years of City Service. The party was held in the Tom Bradley Room high atop City Hall.

June was appointed City Clerk for Los Angeles by former Mayor Antonio Villaraigosa. She served for three consecutive Los Angeles mayors and held a standing position of Legislative Coordinator for 15 years in the administrations of Mayor Richard Riordan, Mayor James Hahn and Mayor Villaraigosa.

She maintained legislative order for the mayor and his staff, managing all legislative records entering and leaving the Mayor's Office, and being personally responsible for all completed Council actions and ordinances submitted for the mayor's concurrence, in compliance with provisions of the City's City Charter and Administrative Code.

June also worked for the City's Personnel Department, Examining Division; in the Office of Councilwoman Peggy Stevenson, 13th Council District, as field deputy; and in the Office of Assemblywoman Gloria Molina, 56th Assembly District, as an assembly aid. She has worked at the Gay and Lesbian Community Services Center in Los Angeles, and has participated in a variety of civic organizations and campaigns.

June graduated *cum laude* with a Bachelor's degree in sociology from UCLA, and compiled two years of graduate studies in sociology, also at UCLA.

We all wish June the best in her well-deserved retirement and know she will be missed by all. Thank you June for your service! And the Club congratulates June on a great City career, and wishes her a fantastic retirement.

June Lagmay with her wife, Rita Romero.

THIS MONTH AT THE

Cabrillo Marine Aquarium

A REC AND PARKS FACILITY

Underwater ROV Workshop

Saturday, December 7th
10 a.m. – 4 p.m.

Discover the amazing world or underwater Remotely Operated Vehicles (ROVs) by building your own from scratch! In this beginner level, hands-on workshop, participants will construct underwater ROVs in groups. We'll do everything from constructing the frame to wiring the control box and waterproofing motors. At the end of the workshop day, participants will compete in a challenge that will help determine the design of the ROV. Hints and tips will be provided for how to add this activity to your classroom or club and what to expect if you decide to compete at the annual MATE ROV competition. This is an introductory level workshop, no engineering experience necessary.

Reservations required:
(310) 548-7562.
Free and open to all.
Parking: \$2
