An Election Job Well Done

General Services employees thanked for their services during election transitions.

On Oct. 1, about 200 employees from General Services gathered in the Tom Bradley Tower high atop City Hall to celebrate an event titled "Election, Inauguration, and Transition."

One of General Services' main functions is to support all City departments, including the Mayor's Office, City Council, City Attorney and Controller. The elections of 2013 ushered in a new Mayor, City Attorney, Controller and seven new Council seats.

Some may not know who facilitates the physical movement out of office, and into office of the newly elected. Moving furniture, cleaning and replacing carpets, painting, assembling office furniture, and providing new locks and keys are only a few of the tasks General Services is responsible for.

Other services include new leases for field offices, motor vehicles purchased or leased for the elected and their staffs, stationery, business cards, signage, banners, flyers, invitations, pamphlets, and the purchasing of anything.

General Services assisted and coordinated with the planning, production, staging and direction that supported the inauguration and swearing-in of the newly elected in July, held on the Spring Street steps of City Hall.

General Services employees pulled off a near seamless transition of City government.
